

International Conference on Scientific Frontiers in Natural Product Based Drugs

July 6-7, 2017

@ Clinical Research Centre Auditorium,
National University of Singapore, Singapore

Plenary Speakers:

Ikhlas KHAN (University of Mississippi, USA)

"Standardization and the role of fingerprinting in modernisation of herbal medicines"

Michael SPEDDING (Spedding Research Solutions SARL, France)

"IUPHAR, Immunology, Metabolism and Natural Products"

HUANG Dejian (Chemistry, National University of Singapore)

"Discovering bioactive constituents in edible plants with the help of molecular fluorescent probes & new screening assays"

Lindsay BROWN (University of Southern Queensland, Australia)

"Tropical macro- and micro-algae as potential treatments for metabolic syndrome"

Invited Speakers:

Mi Kyeong LEE (College of Pharmacy, Chungbuk University, Korea)

"Chemical constituents and biological activities of *Cudrania tricuspidata*: Similarities and differences between the roots, stems, leaves and fruits"

Charlie YEO Tiong Chia (Sarawak Biodiversity Centre, Malaysia)

Title of talk to be announced

LEE Mei-Hsien (Taipei Medical University, Taiwan)

"Role of natural products as neuroprotective agents towards neurodegenerative diseases"

CHEN Ee Sin (Biochemistry, National University of Singapore)

"Pushing the frontiers of natural products in chemotherapeutic applications with genetic interactomics"

Mohammad-Rais MUSTAFA (Pharmacology, University of Malaya, Malaysia)

"Chronic treatment with paeonol protects against tunicamycin-induced endothelial dysfunction through attenuating oxidative stress and endoplasmic reticulum stress"

Dong-Chan OH (Pharmacy, Seoul National University, Korea)

"Insect Symbionts: Prolific Sources of New Bioactive Compounds"

Shin TAKAYAMA (Tohoku University, Japan)

"Effects of traditional Japanese Kampo medicine on ocular blood flow in healthy subjects and in a normal tension glaucoma patient"

Ha Minh HIEN (Institute of Drug Quality Control at Ho Chi Minh City, Vietnam)

"Formulation and Evaluation of Anti-infective Herbal Face Cream containing *Oleum Calophyllum inophyllum*"

LIN Haishu (Pharmacy, National University of Singapore)

"Dietary stilbenes surpassed resveratrol: Superior anti-inflammatory potencies and favorable pharmacokinetic profiles"

Dr Simon LEE (University of Macau, China)

Title of talk to be announced

Gautam SETHI (Pharmacology, National University of Singapore)

"Potential application of nimbolide in the prevention and therapy of prostate cancer"

Kornkanok INGKANIAN (Naresuan University, Thailand)

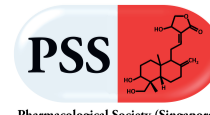

Title of talk to be announced

The conference organisers reserve the right to modify the programme and events
