

ADVANCES IN IMMUNOASSAYS

MILLIPLEX® and SMC® (Single Molecular Counting)

Unlock More Potential from Multiplexing

Get professional insights on harnessing more biomarkers from a single sample

Event Date: 27 May 2022

Time: 10.30 - 11.30 AM SGT (GMT+8)

Dear Prof, Dr. and Scientists,

We are joining forces with the National University of Singapore, Yong Loo Lin School of Medicine, Drug Discovery and Optimization Platform (DDOP) for a LIVE Technology Spotlight to present the state-of-art immunoassay and service solutions to guide your biomarker research programs. This event aims to enable you to address common challenges in biomarkers detection, drug efficacy and safety assessment.

Topics to be discussed include:

- How MILLIPLEX® Multiplex and SMC® (Single Molecule Counting) technologies have enabled researchers to gain unprecedented insights into complex disease processes, drug safety & efficacy
- The pros and cons of using multiplex assay kit versus single ELISA assay kit

Register below for some incredible insights!
